Office of Legislative Counsel

Monday - 16 July 1956

- - -

1. The Senate passed the supplemental containing the CIA building appropriation, and conferees were named. During the course of the day and the days immediately following, the Director contacted, personally or in writing, each of the Senate conferees, and a number of the key conferees on the House side, to urge that the conference adopt language in its report which would remove the restrictions contained in the Senate Committee Report. He was assured of the cooperation or at least interest of all conferees contacted except for Senators Chavez and Ellender.
